

ST. MARY'S ICSE SCHOOL

KOPARKHAIRANE, NAVI MUMBAI

'Museum on Wheels'

The St. Marian's were in for a pleasant surprise on the morning of August 22, 2017. The school in collaboration with Chatrapati Shivaji Maharaj Vaastu Sanghralaya had arranged the mobile museum- 'Museum on Wheels' to visit our school campus as a part of their outreach initiative.

The students had always heard or experienced visits to the museums, but to have the museum come to you in your own backyard was a unique and awesome feeling. This was being done for the first time in Navi Mumbai and we St. Marians take pride in this accomplishment.

The experiential learning not only enriched the student's outlook, but also gave teachers an insight as to how to put up a thorough and comprehensive exhibition in a confined space.

The CSMVS team had come very well prepared with various activities for classes ranging from pre-primary to grade ten. This included a video capsule on the Harappan civilisation, pottery making, block-printing, seal making and composite toy making. Power point presentations on the following topics were presented by a resource person from their team. Topics presented included: Stone tool technology, Iconography, Indus Valley Technology. They spared no expense not only in terms of material provided, but also their skill and expertise on the matter. The pre-activities and videos gave the students a preview on what to expect and thereby aided the enjoyable learning process and retention.

The seamless transition of one thousand two hundred and fifty-three students from one activity centre to the other in a disciplined manner just shows the will and dedication of a true St. Marian.

By and large it was an eventful day for the St. Marian family. We wish to continue this experience in the days to come under the guidance of our Principal Ms H.K.Grover.
