

St Mary's ICSE School

Workshop on Good touch / Bad touch

The program was conducted by Mrs. Anisha Mathews, counsellor at IIT - Mumbai

An awareness program on 'Good Touch and Bad Touch' for Grades 4 and 5 was conducted at the school premises on 16th of June, 2017. This was done with the aim of bringing an insight amongst the students about the different types of touch. The session helped in not only educating the children but also in empowering them to avert such situations by teaching them the right responses.

Mrs. Anisha Mathews steered the students through activities and a slide show specially created for the purpose. She made them identify good / bad touches and also told them where it was permitted. They were guided to inform their parents at home or teachers at school in case of any situations that made them feel awkward. The children actively participated in terms of positive interaction and giving feedback.

The program concluded on a positive note and the students queries were answered.
