

Life is possible only on earth, protect it..Earth... What a Great Host.

The Annual Geo fest with the theme 'Our Earth' was celebrated to bring about an awareness to Save Mother Earth on 20th and the 21st of July, 2017.

The students participated in the following fun- filled activities:

Class II: The students did role play of Planets. Each one dressed up as his/her favourite planet.

Class III: Students did a Fancy Dress on landforms and water bodies.

Class IV: Master Chefs of SMIS –Salad Activity.

Class V: Charts and working models on the movement of the Earth.

Class VI: Charts and models on different types of clouds and Water Cycle.

Class VII: *Interior of the Earth* was the theme

Class VIII: Weather instruments like anemometer, hygrometer, and Stevenson's screen.

Class IX & X: *Sustainable development* is the need of the day.

Class X: Topographic maps.

The Geo fest was an overall learning experience and fun for the students.
