

St Mary's ICSE School

- STEM Training

STEM training workshop was conducted on 26 July 2017 at Bombay Scottish School, Powai. The workshop was attended by Gargi Mitra and Payal Raina. Dr Paddy Sharma, the CEO of STEM Academy of USA and Dr Amitabh Sharma, the Director conducted the session and highlighted the practical aspect in education. Mr Nathan William was the STEM trainer. He explained how STEM education in schools would encourage inquisitiveness, enquiry and out of the box thinking in the students

It would create an environment where children would be happy, confident and enthusiastic learners. STEM education allows for mastery of concepts through Project Based Learning (PBL).

THE ENGINEERING DESIGN PROCESS - THE STEM WAY OF THINKING!
