## GREEN DAY

In our world of colours, green is associated with prosperity and harmony.

“Green Day” was celebrated with great zeal and enthusiasm by Sr.kg on January 12, 2018.

The day began with great fun for all the children and teachers who participated with great enthusiasm by wearing green colour attires.

“Show and tell” activity was conducted in class where children brought a green coloured (art and craft) object from home and spoke a few lines in front of the class on the same. Students were introduced to various shades of green such as aqua green, olive green, bottle green and parrot green.

Each class has done a different takeaway like green vegetable and fruit basket, frog, caterpillar and tortoise. Bubbling with enthusiasm in their astonishing green costumes the little ones created a pleasant, harmonious and refreshing aura.

**It goes without saying that the active involvement in this colourful activity infused in them vigor, vitality and freshness a lot to the theme.**
