Message From Principal's Desk

We at St. Mary's try to inculcate good values other than imparting knowledge.

We want our learners to be good human beings, who are gentle, kind, compassionate, diligent, and tolerant towards others. Our attitude and behavior towards others determine the kind of person we are.

Remember we are doing things that were taught to us and our children will do things that will be taught to them. We are the role models for them. Children watch and follow us. We ourselves will have to do things in the right manner before asking them to do them. Let our goal be to help and teach them to walk on the right path.

In this insensitive and uncompromising world, where everyone is in the race to out do others, let our learners be the ray of hope for a better world. Let us not wait for tomorrow to make things right, for tomorrow never comes. Let us begin from today itself.

We seek the cooperation of all the parents as we embark on this challenging journey of the new academic year 2023-24.

Ms. Blessy Mathews
Principal

"" Train up a child in the way he should go and when he is old, he will not depart from it." (Proverbs 22:6)!

Message From Vice-Principal's Desk

It's our objective that the students of St. Mary's, are molded into global citizens, not with a WELL-FILLED mind, but rather with a WELL-FORMED mind.

Returning to school after exams to start a new academic year is a daunting task for each student. It can take a few weeks for a child to acclimatize to a new grade, peer group, and teacher. We at St. Mary's are with you through this journey, welcoming you to our amazing learning community.

We have taken up the challenge of nurturing responsible, caring students and promoting high-level learning. We recognize that each child has an individuality and special skills. We also realize that all students don't have the same talents and that each student achieves success differently. We encourage each child to develop in their special field of interest.

The aim of our school is to help our students to enhance multiple intelligences to grow into respectable human beings who are future ready to face the challenges of the world. As educators we are committed to incorporate diverse learning strategies that help the all-round development of each child. We strive to impart 21st Century skills deemed extremely important for survival at both the individual and global levels.

With the grace of the Almighty and the efforts of our students, teachers, staff and parents, let us make this school year one of growth and achievement for all.

Fr. John Mathew
Vice Principal
